

10-WHEEL TANKER

Carl Thibault EMERGENCY VEHICLES

MODEL DESCRIPTION CIT-201

- M2-112 Freightliner Commercial Chassis
- 410 HP engine
- 4000 EVS automatic transmission
- VMUX electrical multiplex system with LED lights
- Modular aluminum body
- Roll-up doors
- Storage compartment for portable pump
- 2500 IG polypropylene tank
- Manual rear dump valve with swivel

FEATURES

- With its 2500 IG or 3000 IG tank, this vehicle easily fulfills its function as a water carrier.
- Storage space for two portable tanks allows the overall performance as a water carrier to be maximized.
- A portable pump, installed on a sliding drawer, connected or not to the reservoir, provides this impressive vehicle with a certain versatility.
- The generous compartments allow a variety of equipment to be stored.
- The rear discharge valve turns through 180° and is equipped with a tilting extension.
- The 4-inch rear inlet has no valve and is not subject to freezing in winter. The system is installed inside the reservoir, away from the cold.
- The top of the reservoir can be used to transport the vehicle's hoses, or equipment.
- An aluminum ladder, installed in the rear of the vehicle, provides easy access to the hose bed.
